

BADGER BOYS STATE

Dear Sponsor,

I would first like to start this letter out by thanking you for sponsoring me and allowing me to attend the 74th session of Badger Boys State. They really aren't kidding when they say it is a week to change a lifetime. Many experiences, thoughts, and talking with other Badger Boys states and our counselors, I believe that I have learned more during this week than I have ever, especially about myself. I highly appreciate this opportunity. I am a citizen of the city of Thomson, in the county of Howe. I came into this experience wanting to get the most possible out of this. I did not run for anything, as government is not an extreme interest of mine, but the whole program and its activities have given me the opportunity to learn very important things. One thing that has really stuck in my head was when our counselor told us to find what's important in our life, I instantly thought about and thought about what I could do back at home to make myself a better person. Once again, I would love to thank you for giving me the opportunity to come to the 74th session of Badger Boys State and I am extremely grateful. I look forward to explaining more about the experience I have gotten here.

Thank you,

Jacob M. Wiedower

BADGER BOYS STATE

Dear Mr. Witkowski,

Sponsoring me for this trip has been such an honor. When I first arrived, I wasn't sure what my city name meant. I realized later that being in Hoard in Carpenter county was being in a brotherhood. The people I've met have become so close, and our city has become a team. I ran for many offices, including city party secretary, city clerk, county clerk, county party campaign manager and county board of supervisors. I was also a county delegate for the Nationalist party. I participated in the choir and basketball games and have seen big success. This trip has been life changing, and although I used to not like government, my experience here has given me a stronger appreciation for it. Thank you immensely from the bottom of my heart, and if I shall see you eventually, I would love to tell you about my time at Badger Boys State.

Many thanks,
Gabriel Olasingin
